

Vitamin D3

A vital hormone for health and longevity* - 5000 units of vitamin D3 in a single serving softgel!

This essential molecule promotes the body's absorption of calcium and phosphorous, which are essential for the development and maintenance of healthy teeth and bones. Research is suggesting vitamin D may also support immune system function by supporting healthy cell growth.*

Supports:

- Bone Health*
- Calcium Balance*
- Cardiovascular Function*
- Healthy Cell Growth*
- Immune System Modulation*

About Vitamin D3:

Vitamin D3 is a fat-soluble vitamin that is essential for maintaining normal calcium metabolism. Vitamin D3 (cholecalciferol) can be synthesized by humans in the skin upon exposure to ultraviolet-B (UVB) radiation from sunlight, or it can be obtained from the diet.

Calcium Balance:

Maintenance of serum calcium levels within a normal range is vital for normal functioning of the nervous system, as well as for bone growth, and maintenance of bone density. Vitamin D3 is essential for the efficient utilization of calcium by the body.

Cardiovascular Support:

Adequate Vitamin D3 levels may be important for maintaining blood pressure within normal ranges.* Vitamin D3 also impacts heart health by supporting the body's natural cytokine production and vascular function*

Cell Differentiation:

Cellular proliferation is essential for growth and wound healing. Uncontrolled proliferation of damaged cells is unhealthy. Vitamin D3 inhibits uncontrolled proliferation and stimulates differentiation, which is the process of specializing cells for specific healthy functions.*

Immunity:

Vitamin D3 is an immune system modulator to support healthy T-Cell and macrophage responses.*

Supplement Facts

Serving Size: 1 Softgel

Amount Per Serving

Vitamin D3 (cholecalciferol)

5,000 IU

Other ingredients: Soybean oil, gelatin, vegetable glycerin, purified water

Suggested Use:

Adults (Age 18 and above): As a dietary supplement, take 1 softgel daily, or as directed by your healthcare practitioner.

Warning: Individuals taking more than 2,000 IU per day should have their Vitamin D levels monitored. If you are pregnant or nursing, consult your healthcare practitioner.

1412.4 (100 Softgels)
